

Analysis Design Architecture

Sponsorship Prospectus 2024

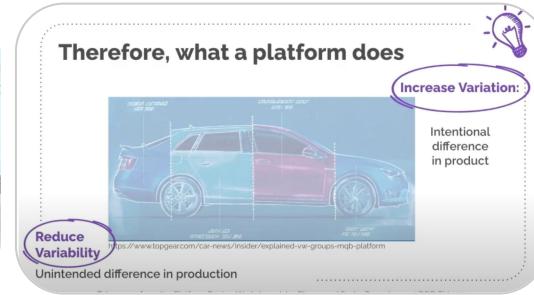

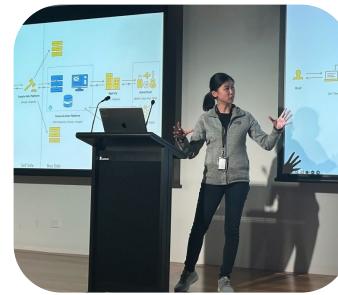

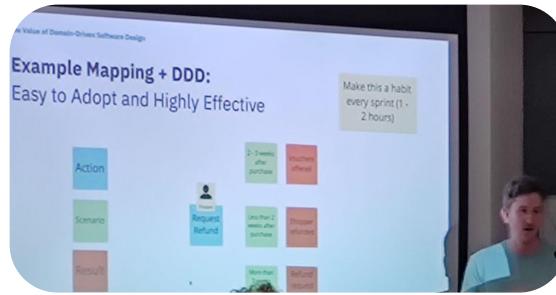

ADAConf 2024 is an inaugural Australian *community conference* for those interested in software analysis, design, and architecture.

ADAConf creates space for conversations ranging from technology and implementation, to conceptual approaches and design philosophy.

 <https://www.linkedin.com/company/adaconf/>

 <https://adaconf.org/>

**8th of November 2024,
Melbourne**

Our mission is to **refocus** software development **conversations**

around building **robust, resilient, adaptable** and **responsive software**

Expected Audience

The ADAConf team

Sonal Premi

Sonal is a consultant with close to two decades of experience in the technology sector. She has a relentless commitment to building people and products, and is always challenging conventionally accepted norms.

Sonal enjoys engaging with the tech community by co-organising the DDD Australia meetups, speaking at meetups and conferences, and actively mentoring people. She is partial to conversations about problem solving and decision making processes. She aspires to always keep learning, and build a community that learns and grows together.

Chris Simon

Chris is a 2 x Startup CTO/co-founder turned independent consultant who is an active community organiser and participant. He speaks regularly at international conferences, meetups, webinars and podcasts and co-organises DDD Australia. He's an open source maintainer and through his consulting work provides training, coaching and advisory services in Domain-Driven Design, technical leadership and strategy.
